

I need to let you know what a void will be left if stations like K-Love here. This is one of the few avenues I have to hear uplifting, Christian music. If this venue is removed there will not be an outlet for me to hear this type of music. There is a need for the public to be able to hear the music that praises my Lor and Saviour, that allows the public to know that there is an alternative to the what is currently carried on other stations.
